HP ATP - WorkSite v9

This certification validates that you are able to deploy, configure, and troubleshoot a WorkSite 9 DMS server, a WorkSite IDOL 8.5 indexer, server-side e-mail management technology, and WorkSite 9 desktop clients and search tools. It also verifies that you can do the following:

- Import custom metadata into WorkSite and customize user dialogs in multiple languages
- Configure WorkSite to support encrypted file storage and remote users
- Deploy WorkSite 9 clients to support workspace-centric document management
- Design and create WorkSite 9 workspaces and workspace templates using WorkSite Web

Why earn this certification?

- To enhance your expertise with proven technical skills for HP WorkSite 9
- To demonstrate your ability to deploy, configure, and troubleshoot a HP WorkSite 9 DMS server
- To show that you can manage the WorkSite 9 DMS server, a WorkSite IDOL 8.5 indexer, server-side e-mail management technology, and WorkSite 9 desktop clients and search tools
- To advance your career by becoming HP ATP - WorkSite v9 certified

Candidate

Typical candidates for this certification include HPE customers and partners who are responsible for the following:

- Deploying or supporting WorkSite 9 for large and geographically dispersed organizations
- Integrating WorkSite 9 with other complex enterprise technologies

Skill level

Professional

Steps to acquire this certification
