Ideal candidate for this course

Presales Storage focused individuals who support the sales representatives at the customer site and subsequently prepare a complete and supported solution for a customer. The ideal candidate provides the technical support needed during the planning and design of HPE small to medium business (SMB) and enterprise storage products and solutions.
This training is important for a channel partner organization and members of an HPE sales team looking to increase its sales of HPE storage solutions. Individual customers who are members of an internal purchasing team defining business needs and proposing solutions within an organization would also find value in this training.
of Storage Professionals to consult, Architect, design and propose solutions in the HPE Storage Enterprise portfolio.

Prerequisites

For specific prerequisites and requirements to achieve any of the related certifications, see the certification description on the Certification and Learning website.
