

# Selling HP Enterprise Storage Solutions and Services

## Exam description

This exam tests your knowledge selling enterprise storage solutions and services.

## Who should take this exam?

This exam is for HP channel and distributor attended partners, sales representatives and presales consultants who want to understand how to better sell HP enterprise storage solutions and services to their customers. You should have a least 1 year experience with HP storage products and services.

Exams are based on an assumed level of industry standard knowledge that may be gained from training, hands on experience, or other prerequisite events. The associated training course provides a foundation but you are expected to have experience selling HP storage solutions and services as well.

## Exam contents

This exam has 40 questions. Here are types of questions to expect:

- Matching
- Multiple choice (multiple responses)
- Multiple choice (single response)

## Tips for taking this exam

It is important to note that although training is recommended for exam preparation, successful completion of the training alone does not guarantee that you will pass the exam. In addition to training, exam items are based on knowledge gained from on the job experience and application as well as other supplemental reference material.

Take the time to read the entire question and consider all of the options carefully before you answer. If the question indicates that it features an exhibit, study the exhibit and reread the question. Make sure to select the answer that correctly responds to the question that is asked — not simply an answer that includes some correct information. If the question asks for more than one answer, remember to select each correct answer. You will not receive partial credit for a partially correct answer.

## Supporting courses

These recommended courses help you prepare for the exam:
