

Aruba Certified Edge Professional (ACEP)

The Aruba Certified Edge Professional certification validates that you have achieved three of the four professional level Aruba certifications. As an Aruba Edge Professional you have demonstrated the knowledge and skills required for an Aruba certified individual at the professional level in at least three of the following areas:

- Mobility
- Design
- Switching
- ClearPass

This certification validates that you:

- Have completed at least three Aruba certifications at the professional level
- Have comprehensive knowledge in multiple areas of Aruba products and services, including Mobility, Design, ClearPass, and/or Switching
- Have the knowledge and skills necessary for an Aruba certified professional

Why Earn This Certification?

Earn this certification to:

- To differentiate yourself as a trusted team member with a broad range of skills on Aruba's industry leading technologies
- To validate your advanced knowledge and skills on a wide range of Aruba technologies
- To advance your career as a certified professional
- To simplify recertification requirements by reducing the number of exams required to recertify your certifications from 2-4 to 1 Edge Professional exam

Candidate

Typical candidates for this certification are networking IT professionals with a minimum of six months experience in Aruba products and services.

Certification achieved

Three to five days after you complete all requirements, you receive an email notification. Then your status in The Learning Center becomes “acquired”.

If you renewed this certification through a recertification path, you will also recertify any lower level certifications you achieved within the same domain. Example: Renewal of ACMX will renew ACMP and ACMA. All renewed certifications from the one renewal path will have the same new expiration date.

If you renewed this certification by completing the Edge certification or the Edge recertification path at any level (Associate/Professional/Expert), this will renew all certifications you achieved at that same level and any lower levels you have achieved. Example: ACEP renews ACMP, ACSP, ACCP, ACDP etc. and any Associate level you already achieved. All renewed certifications from the Edge certification or recertification path will have the same new expiration date.

Digital Badge

Based on the [Open Badges Standard](#), digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. [Click here](#) for more information on HPE digital badges.
