

HPE Master ASE - Advanced Server Solutions Architect V3

This certification validates your ability to design, differentiate and deploy advanced enterprise server solutions including HPE Integrity, Apollo and Moonshot servers.

Additionally this certification validates you can:

- Describe IT transformation areas affecting enterprises and how HPE server strategy and solutions address these opportunities
- Explain and position HPE advanced server solutions including Integrity, Apollo and Moonshot
- Lead Proof of Concept activities and demonstrations
- Determine customer technical, financial and business requirements and design the best solution
- Identify HPE's strengths over other vendor solutions
- Determine the anticipated ROI/TCO of the recommended solution

Why earn this certification?

- To position yourself as having the advanced, validated skills needed to design server solutions for more complex or mission-critical environments
- To help organizations maximize their investments in HPE server solutions
- To validate your ability to help lead data center transformation projects
- To maintain HPE partnership benefits
- To enhance your career and job satisfaction as a master certified HPE Server Solutions expert

Candidate

Typical candidates for this certification are consultants, sales engineers and presales technical architects who recommend, design and demonstrate HPE Server solutions for more complex or mission-critical scenarios.

Skill level

Master

Steps to acquire this certification
