HPE Aruba Networking Certified Professional – Network Security

This certification verifies that you understand intermediate security concepts, including:

- Implementing Zero Trust Security and protecting network threats.
- Configuring HPE Aruba Networking infrastructure and ClearPass solutions to authenticate and control wired and wireless users.
- Collecting contextual information on ClearPass Policy Manager.
- Implementing advanced role mapping and enforcement policies.
- Using ClearPass Device Insight enhancing visibility.

Updates to the certification course and exam went live on October 15, 2024. See the Release Notes for more details.

Why earn this certification?

- Build your expertise of common security threats and vulnerabilities.
- Become a trusted advisor in network security.
- Understand, recommend, and explain device hardening, implementation of implementing Zero Trust Security and protecting network threats.

Candidate

Typical candidates for this certification are network engineers responsible for implementing security controls on enterprise networks. The candidates should be able to describe the network security stack (firewall, proxy, remote access, IDS/IPS, access control, NTA, UEBA). They have worked two to three years in networking with a one-year security focus.

Skill level

Professional

Steps to acquire this certification

Before you begin

Acquire access to The Learning Center and get an HPE Learner ID. If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

Register for this certification in The Learning Center. This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

Step 2: Verify and complete all prerequisites and requirements for your chosen path:

Requirements for candidates new to this certification

There are no prerequisites for this path.

Complete:

Digital Badge

Based on the Open Badges Standard, digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. Click here for more information on HPE digital badges.
