

HPE Aruba Networking Certified Expert – Network Security

This certification verifies that you have advanced knowledge in using HPE Aruba Networking solutions to enforce Zero Trust Security. Earning this certification validates that you have the expert-level skills needed to:

- Design and implement role-based access controls, integrating HPE Aruba Networking solutions with third-party products, and detecting and mitigating threats.
- Develop a secure network utilizing many of the tools within the HPE Aruba Networking product suite.
- Implement and configure the most advanced ClearPass Policy Manager features to leverage this powerful access control tool across multiple HPE Aruba Networking products such as IAP, AOS10, and HPE Aruba Networking Central. This includes wired and wireless authentication.

Updates to the certification exam and course, including Axis Atmos Security Service Edge (SSE) Technology, went live on October 15, 2024. See [Release Notes](#).

Why earn this certification?

1. Position yourself as a network security expert in advanced HPE Aruba Networking solutions and HPE Aruba Networking integrations to protect customers against threats.
2. Demonstrate that you can deploy a comprehensive solution that fits customers' specific network security needs.
3. Enhance your career and job satisfaction as an Aruba Network Security Expert (ACX), the highest level certification from HPE Aruba Networking.

Candidate

The typical candidate is a senior network engineer responsible for implementing and troubleshooting security controls on enterprise networks. The successful candidate can discuss the network security stack in depth with customers (firewall, proxy, remote access, IDS/IPS, access control, NTA, UEBA).

Skill level

Master

Steps to acquire this certification

Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

Step 2: Verify and complete all prerequisites and requirements for your chosen path:

Requirements for candidates new to this certification

There are no prerequisites for this path.

Requirement 1 – Complete:

Exam #	Exam name	Register for exam
HPE7-A10	HPE Network Security Expert Written Exam	Register

Recommended Training

Course #	Course Name	Format – Typical duration	Register for course
Training for Exam HPE7-A10: HPE Network Security Expert Written Exam			
0001210374	Advanced Network Security, Rev. 24.41	VILT – 5 days ILT – 5 days	Register

WBT = Web Based ILT = Instructor Led VILT = Virtual Instructor Led VCR – Virtual Class Recorded SCA = Special Course or Activity

Requirement 2 – Complete:

Exam #	Exam name	Register for exam
HPE4-A50	HPE Network Security Expert Practical Exam	Register

Recommended Training

Course #	Course Name	Format – Typical duration	Register for course
Training for Exam HPE4-A50: HPE Network Security Expert Practical Exam			
0001210374	Advanced Network Security, Rev. 24.41	VILT – 5 days ILT – 5 days	Register

Digital Badge

Based on the [Open Badges Standard](#), digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. [Click here](#) for more information on HPE digital badges.
