

HPE ASE – Compute Solutions V1

This certification validates that you know how to plan and design HPE compute solutions based on industry standard computing technologies and workloads. You will gain skills thru hands-on labs that will allow you to explore HPE Synergy components, HPE OneView server profiles and HPE ProLiant servers as well learning to work with HPE Superdome Flex and HPE Superdome Flex 280. You will also learn to recommend and position HPE compute products, solutions and appropriate services for customer use cases and workloads.

Why earn this certification?

- Learn full coverage of the HPE Synergy platform including HPE OneView
- Receive an introduction to HPE Primera in the compute context along with an introduction to the HPE Superdome Flex and HPE Superdome Flex 280 technologies
- Learn how to automate with PowerShell scripting
- Learn how to integrate HPE OneView for VMWare vCenter Server and HPE Storage Integration Pack for VMWare vCenter
- Learn the basics of virtualization with HPE OneView integration

Candidate

The Minimally Qualified Candidate (MQC) has a minimum of 24 months experience with HPE compute solutions and associated technologies, including the ability to design, install, configure, optimize, and resolve issues related to integration and operation.

Steps to acquire this certification

Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

Step 2: Verify and complete all prerequisites and requirements for your chosen path:

Digital Badge

Based on the [Open Badges Standard](#), digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. [Click here](#) for more information on HPE digital badges.
