

HPE ASE – Storage Solutions V4

This certification validates that you can identify, recommend, and explain HPE Enterprise Storage Solutions architectures and technologies, and translate business requirements into storage solution designs that support applications and data across physical, virtual and cloud environments with a common architecture and converged management. This certification also shows that you can design HPE Backup Solutions including the right Backup, Recovery, and Archive (BURA) strategies for various customer scenarios. This certification validates that you can:

- Differentiate and apply enterprise storage architectures and technologies
- Identify enterprise storage and backup opportunities then plan, design, and size the right HPE Storage Solution
- Design, identify, and recommend HPE Storage Enterprise and Backup Solutions including proof-of-concepts

In addition you prove your expert knowledge of one of two specialty areas:

- Using HPE OneView
- Using HPE SimpliVity

Why earn this certification?

- To increase your credibility as a storage expert who can offer customers value with HPE Storage solution designs that increase performance, and reduce cost and risk
- To differentiate yourself as a knowledgeable expert in the latest storage technologies, including Flash, Software-Defined Storage (SDS), and HyperConverged Appliances, with the ability to design HPE Backup Solutions including the right Backup, Recovery, and Archive (BURA) strategies for various customer scenarios.
- To demonstrate your expert skills in one of three specialized areas: storage management, high-end storage solutions, backup and recovery
- To advance your career and enhance your job satisfaction as an HPE Accredited Solutions Expert in Storage
