

HPE Master ASE – Edge-to-Cloud Architect

As a presales architect, this certification verifies that you can translate customer business requirements into complex, multi-site, or highly-customized integration of HPE solutions. You consider all available consumption models and hosting locations, using a consultative approach to drive discussions about business outcomes and financial implications. You use related HPE tools and applications as necessary to design the solution, calculate quantities, licenses and appropriate services to fully meet the stated customer requirements. This certification qualifies for the [HPE Master ASE Advantage program](#), an HPE Tech Pro exclusive offer. Updates to the certification exam and course went live on July 1, 2024. See [Release Notes](#) for details.

Why earn this certification?

- Describe, differentiate, and apply IT industry trends, standard architectures, technologies, and cloud delivery models.
- Gather and analyze customer business and technical requirements.
- Recommend and position HPE offerings for customer use cases.
- Architect and design an HPE solution based on customer needs.
- Present and demonstrate the solution to the customer and coordinate implementation planning.

Candidate

Ideal candidates are architects with at least five years of experience architecting complex solutions, including HPE partners and team members in a presales architect or consulting role who plan/design/integrate and install complex HPE solutions for Enterprise customers. They can scope and architect solutions for the full edge-to-cloud service experience.

Steps to acquire this certification

Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.
