HPE Master ASE – Storage Solutions Architect V3 (inactive)

This certification verifies that you can
- Identify enterprise storage and backup opportunities and then plan, design, and size the right solution for multi-site environments.
- Design solutions that include requirements to manage, monitor, administer, and operate HPE Storage Enterprise and Backup Solutions including the ability to install, configure, and demo proof-of-concepts.
- Optimize, performance-tune, and upgrade your customer's HPE Storage solutions.
- Recommend, explain, and use HPE Nimble storage solutions.

Why earn this certification?

- To differentiate yourself as a master storage technologist by holding one of HPE's most distinguished certifications.
- To maximize your credibility as a knowledgeable expert in the latest storage technologies including Flash and Nimble Storage, Software-Defined Storage (SDS), and HyperConverged Appliances.
- To demonstrate your ability to design enterprise, multi-site complex storage solutions that reduce cost and risk while increasing performance and value.
- To establish a competitive advantage with HPE's highest storage credential that sets you apart as an IT trusted advisor who optimally deploys complex storage solutions.
- To advance your career and enhance your job satisfaction as an HPE Master Accredited Solutions Expert.
- To become a part of the elite community of Master ASE Storage professionals with access to HPE technical experts and exclusive special events.

Candidate

Typical candidates for this certification are experienced Storage Architects who lead a team that designs multiple site, enterprise storage solutions. These architects leverage HPE Converged Storage solutions for various customer environments. Successful candidates should have a minimum of three to five years experience.

Skill level

Master

Steps to acquire this certification

Before you begin

Acquire access to The Learning Center and get an HPE Learner ID. If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

Register for this certification in The Learning Center. This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

Step 2: Verify and complete all prerequisites and requirements for your chosen path:

Requirements for candidates new to this certification
You must have 1 of these:
- HPE ASE – Storage Solutions V4 (expired)
- HPE ASE – Hybrid IT Solutions Architect V1 (inactive)
- HPE ASE – Storage Solutions Architect V3 (expired)
- HPE ASE – Storage Solutions Integrator V2 (expired)

Complete:

Exam #	Exam name	Register for exam
HPE0-J58	Designing Multi-Site HPE Storage Solutions (inactive)	N/A

Recommended Training
None

Digital Badge
Based on the Open Badges Standard, digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. Click here for more information on HPE digital badges.
