

HPE Product Certified – HPE OpsRamp

This certification verifies that you can set up, configure, and administrate OpsRamp solutions as part of hybrid digital operations management in order to monitor multi-vendor and multi-cloud environments. Earning this certification will enable you to:

- Manage deployment architecture, design considerations, capabilities and features, process automation, patch management, dashboards, and event correlation.
- Understand how OpsRamp uses big data and machine learning to help customers automate monitoring, event management, and incident remediation.

Why earn this certification?

- To increase your credibility as an IT professional with OpsRamp technological acumen.
- To differentiate yourself as an expert who can offer customers value using HPE solutions for OpsRamp.
- To advance your career and enhance your job satisfaction as an HPE Product Certified Expert in OpsRamp.
- To become a part of a growing community of fellow HPE certified professionals who network and share best practices.

Candidate

Typical candidates for this certification are HPE customers, partners, and team members who have experience with multiple IT management tools (ITOPS) and want to validate that they can configure, implement, support, and use OpsRamp. Minimal knowledge required: Basic industry standard skills to monitor, manage, and automate hybrid environments.

Skill level

Foundational

Steps to acquire this certification

Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

Step 2: Verify and complete all prerequisites and requirements for your chosen path:

Requirements for candidates new to this certification

Digital Badge

Based on the [Open Badges Standard](#), digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. [Click here](#) for more information on HPE digital badges.
