

# HPE Solution Certified – Data Protection

This certification verifies that you can display competency in multiple data protection technologies, strategies, and deployment models in order to architect a solution and strategy that aligns with the customers' business drivers and mitigates potential risks.

Earning this certification will validate that you can:

- Describe and use data protection concepts, technologies and software, as well as integrations and tools.
- Appropriately gather information, design and size, and validate HPE data protection solutions that fully meet customer needs.

## Why earn this certification?

- To increase your credibility as an expert in multiple data protection technologies, strategies, and deployment models that align with the customers' business needs.
- To differentiate yourself as an expert who can offer customers value and articulate key differentiators for HPE solutions.
- To advance your career and enhance your job satisfaction as an HPE Solutions Certified Expert in data protection.
- To become a part of a growing community of fellow HPE certified professionals who network and share best practices.

## Candidate

Typical candidates for this certification have a broad understanding of data protection technologies and concepts in order to architect a solution and strategy that aligns with the customers' business drivers and mitigates potential risks. This includes experience with multiple data protection technologies, strategies, and deployment models.

## Skill level

Master

## Steps to acquire this certification

### Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

### Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

### Step 2: Verify and complete all prerequisites and requirements for your chosen path:

#### Requirements for candidates new to this certification

There are no prerequisites for this path.

## Complete:

Exam #	Exam name	Register for exam
HPE2-B01	<a href="#">HPE Data Protection Solutions</a>	<a href="#">Register</a>

## Recommended Training

Course #	Course Name	Format – Typical duration	Register for course
Training for Exam HPE2-B01: HPE Data Protection Solutions			
0001200320	<a href="#">HPE Data Protection Solutions, Rev. 23.11</a>	WBT-PDF – 2 days 4 hours	<a href="#">Register</a>

WBT = Web Based

ILT = Instructor Led

VILT = Virtual Instructor Led

VCR – Virtual Class Recorded

SCA = Special Course or Activity

## Digital Badge

Based on the [Open Badges Standard](#), digital badges are online representations of your HPE certifications. Each badge is unique to you. Once you accept and place your badge online—in LinkedIn, Twitter, your email signature, for example—clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, and the skills and capabilities required of the certification. [Click here](#) for more information on HPE digital badges.
