

# HPE Solution Certified - Sovereign Cloud

This certification verifies that you can articulate the principles and challenges of digital sovereignty and explain the considerations and technologies associated with regulated environments. You can explain:

- The benefits of HPE GreenLake and HPE Private Cloud Enterprise with disconnected or sovereign management
- HPE Compute solutions, features, and technologies for achieving security
- HPE solutions and technologies for securing and networking the cloud with HPE GreenLake
- Data protection methodology and HPE data protection solutions
- The components and benefits of the HPE Sovereign Cloud reference architecture

## Why earn this certification?

- To increase your credibility as an IT professional with Sovereign Cloud technological acumen.
- To differentiate yourself as an expert who can offer customers value using HPE Sovereign Cloud.
- To advance your career and enhance your job satisfaction as an HPE Solutions Certified Expert.
- To become a part of a growing community of fellow HPE certified professionals who network and share best practices.

## Candidate

Typical candidates for this certification work in fields where they need to control where data resides, where it flows, and who has control over it. Candidates plan and design complex HPE solutions. They can interpret customer requirements for regulated environments with a consultative approach.

## Steps to acquire this certification

### Before you begin

Acquire access to [The Learning Center](#) and get an [HPE Learner ID](#). If this certification requires a written or online exam (HPE0 or HPE6 or HPE2), then create a user profile with Pearson VUE, our exam vendor for proctored/online exams. Practical exams (HPE1 or HPE0-AxxxP) are delivered through PSI or Aruba Education Services, therefore no Pearson VUE user profile is required.

### Step 1: Register or apply for this certification

[Register for this certification in The Learning Center](#). This will make your progress toward this certification more visible within your learner transcripts and the HPE Learning Management Systems.

### Step 2: Verify and complete all prerequisites and requirements for your chosen path:
