

# Aruba ClearPass Fundamentals, Rev. 20.11

## Course description

The Aruba ClearPass Fundamentals course prepares participants with foundational skills in Network Access Control using the ClearPass product portfolio. This 3-day course includes both instructional modules and hands-on labs to lead participants through the implementation and configuration of a ClearPass Network Access Control solution. This course is the first of two sections in the complete ClearPass Essential course, and is designed to build the learner's foundational knowledge in authentication and access control using ClearPass. The complete ClearPass Essentials course is available in a 5-day course. This course is primarily focused on ClearPass fundamentals, but provides the basics on the device configuration required when considering the interaction between the Network Access Control Device and ClearPass.
