Configuring HPE Aruba Networking ClearPass, Rev. 24.41

Course description

This course teaches you the foundational skills in Network Access Control using the HPE Aruba Networking ClearPass product portfolio. This 5-day course includes both instructional modules and labs to help you understand about the major features in the product portfolio. You will learn how to setup set up HPE Aruba Networking ClearPass as an AAA server, and configure the Policy Manager, Guest, OnGuard and Onboard feature sets. In addition, this course covers integration with external Active Directory servers, monitoring and reporting, as well as deployment best practices. You will gain insight into configuring authentication with HPE Aruba Networking ClearPass on both wired and wireless networks.
