

# Introduction to HPE SMB Hybrid IT Architectures, Rev. 19.41

## Course description

This course teaches participants the following foundational topics for small and medium business (SMB) solutions:

- Industry-standard foundational architectures and technologies
- HPE networking, server and storage solutions and their workloads
- HPE planning and design tools

## Ideal candidate for this course

Typical candidates for this course are entry-level Presales Engineers, Solutions Architects, and Solutions Engineers who have six months to a year of experience working with data center technology.

## Suggested prerequisites

None

## Topics

- **Industry-Standard foundational SMB Architectures and Technologies**
  - Describe specific technologies and related use cases including Industry-standard technologies, process technologies, memory technologies, storage technologies, network technologies, system management technologies, rack, and power.
- **HPE Solutions and Their Workloads**
  - Describes the features and benefits of HPE servers for SMBs.
  - Summarize the HPE ProLiant Gen10 server portfolio overview.
  - Explain how HPE Storage technologies and products can benefit SMB customers.
  - Describe the HPE switches and networking technologies that are appropriate for SMBs.
  - Communicate the value proposition for HPE management options for SMBs
- **HPE Planning and Design Tools**
  - Use HPE Planning and design tools to plan a data center

## Objectives

After you successfully complete this course, expect to be able to:

- Describe specific technologies and related use cases including Industry-standard technologies, process technologies, memory technologies, storage technologies, network technologies, system management technologies, rack, and power.
- Describes the features and benefits of HPE servers for SMBs.
- Summarize the HPE ProLiant Gen10 server portfolio overview.
- Explain how HPE Storage technologies and products can benefit SMB customers.
- Describe the HPE switches and networking technologies that are appropriate for SMBs.
- Communicate the value proposition for HPE management options for SMBs.
- Use HPE Planning and design tools to plan a datacenter.
