

HPE Networking ClearPass Exam

Exam description

This exam validates your knowledge of the following:

- Foundational skills in Network Access Control using the HPE Aruba Networking ClearPass product portfolio
- Major features of the HPE Aruba Networking ClearPass portfolio
- Set up HPE Aruba Networking ClearPass as an AAA server
- Configuration of the HPE Aruba Networking Policy Manager, Guest, OnGuard, and Onboard feature sets
- Integration with external Active Directory servers, monitoring and reporting, and deployment best practices

Ideal candidate for this exam

Typical candidates for this exam are:

- Network Security Experts
- Individuals who implement network access control solutions.
- Network managers with HPE Aruba Networking access device experience (wired & wireless)
- Network administrators who already own a HPE Aruba Networking ClearPass solution and are looking to deploy advanced features

Exam contents

This exam has 50 questions.

Advice to help you take this exam

- Complete the training and review all course materials and documents before you take the exam.
- Exam items are based on expected knowledge acquired from job experience, an expected level of industry standard knowledge, or other prerequisites (events, supplemental materials, etc.).
- Successful completion of the course or study materials alone, does not ensure you will pass the exam.
