HPE digital badges: Your time to shine

Certification & Learning program

HPE digital badge program

Badges are a great way to display and verify with customers or employers the HPE-based skills and knowledge you have obtained. By adding digital badges to your profiles, you are helping your customers and employers understand and appreciate what is required to obtain an HPE certification. These achievements differentiate you from other professionals, and by promoting your digital badge, you allow others to see the skills and knowledge you have.

These are the different types of digital badges:

1. HPE technical certifications
2. HPE sales certifications
3. Credentials such as HPE Aruba Networking Product Specialized, and HPE Aruba Networking SD-WAN
4. HPE Certification Distinction Program
5. HPE or HPE Aruba Networking Subject Matter Expert (SME)
6. HPE or HPE Aruba Networking Certified Instructor

After earning your certification, you will receive an email from Credly, (admin@credly.com), our digital credential provider. It will contain instructions on how to obtain your digital badge. You'll be asked to set up an account—or asked to log in if you already have a Credly account—and from there you will be able to add your digital badges to your profiles. Visit the following pages for more information:

- [Showcase your sales certification](#)
- [Showcase your technical certification](#)
