HPE digital badges: Your time to shine

Certification & Learning program

HPE digital badge program

Badges are a great way to display and verify with customers or employers the HPE‑based skills and knowledge you have obtained. By adding digital badges to your profiles, you are helping your customers and employers understand and appreciate what is required to obtain an HPE certification. These achievements differentiate you from other professionals, and by promoting your digital badge, you allow others to see the skills and knowledge you have.

There are five types of certification digital badges:

1. HPE technical certifications

2. HPE sales certifications

3. Credentials: Workload Solutions, Aruba Product Specialized, and Aruba SD-WAN

4. HPE or Aruba Subject Matter Expect (SME)

5. HPE or Aruba Certified Instructor

Within eight to ten business days after earning your certification, you will receive an email from Credly, formerly Acclaim, (admin@credly.com), our digital credential provider. It will contain instructions on how to obtain your digital badge. You'll be asked to set up an account—or asked to log in if you already have a Credly account—and from there you will be able to add your digital badges to your profiles. Visit the following pages for more information:

- Showcase your sales certification

- Showcase your technical certification

Digital badges list
