

Digital badging: your time to shine

The new HPE certification digital badge program

HPE has partnered with Credly's Acclaim platform, to provide certified professionals with digital **badges** of their HPE certifications. These badges are a great way to display and verify with customers or employers the HPE-based skills and knowledge you have obtained.

Learn about the new HPE digital badge program

What are HPE digital badges?

Digital badges are online representations of your HPE-based knowledge and expertise. They include sales and technical certification achievements, along with subject matter expert and instructor expertise, that you add to an electronic resume, LinkedIn and/or Twitter profiles, email signatures, or personal and company websites. Each badge is unique to you. Clicking on the badge sends the viewer to a custom verification page that includes your name, HPE certification(s) held, skills and capabilities required of the certification, and issue and expiration dates.

Why should I use digital badges of my HPE certifications?

You've spent many hours studying, learning, and passing exams to obtain one of the most respected certifications in the industry. By adding digital badges to your profiles, you are helping your customers and employers understand what is required to hold an HPE certification. These certifications differentiate you from other professionals, and by adding a digital badge, it allows others to verify the skills and knowledge you have.

Within Acclaim, you can also find active job listings from employers looking for the HPE skills you've obtained.

How does the program work?

After earning your certification, you will receive an email from Acclaim (admin@youracclaim.com) with instructions on how to obtain your digital badge. You'll be asked to set up an account—or asked to log in if you already have an Acclaim account—and from there you will be able to add your digital badges to your profiles.

Find answers to the most commonly asked questions about the digital badge program for HPE certification holders.

Here are some helpful links to get the word out about your certification(s).

- [LinkedIn](#)
- [Email signature](#)
- [Twitter](#)
- [WhatsApp](#)

1. How does my certification get displayed as a badge?

We have partnered with Credly's Acclaim platform to translate the learning outcomes you've demonstrated into a badge. The technology Acclaim uses is based on the **Open Badges Standard** maintained by IMS Global. This enables you to manage, share, and verify your competencies digitally.

2. What are the benefits of a badge?

Representing your skills with a badge gives you a way to share your abilities online in a way that is simple and trusted, and can be easily verified in real time. Badges provide employers and peers concrete evidence of your certification achievement and current capabilities. Acclaim also offers labor market insights based on your skills.¹ You can search and apply for job opportunities through the Acclaim platform.

3. Who is Acclaim?

Acclaim is a digital badge platform that works with credible organizations to provide digital credentials to individuals worldwide.

4. How will I know if I've earned a badge?

You will receive an email notification from Acclaim (admin@youracclaim.com) with instructions for claiming your badge and setting up your account.

5. I've already downloaded an HPE certification insignia from MyLearning. How is the new digital badge different?

While the insignia and the new digital badge signify the attainment of the same HPE certification, the new digital badges bring a whole new realm of verification and metadata that the insignias do not. By using the digital badges, you allow viewers to verify your name, HPE certification(s) held, skills and capabilities required of the certification, along with issue and expiration dates. Representing your skills as a digital badge, versus the insignia, allows you to share your abilities online in a way that is simple and trusted, and can be easily verified in real time.

6. I have a certification but there is no digital badge available

Not all certifications will be supported by digital badges. For example, some are in the process of being updated. Digital badges are being rolled out for the newest existing certifications and all upcoming new and updated certifications. If you hold an existing certification not supported by a digital badge you will still be able to promote your certification using insignias. To download your insignia, you will need to access mylearninghpe.com. Under the Benefits tab, click on Level Insignias.

7. Are sales certifications included in the digital badge program?

Yes, certain sales certifications are included. Specifically, the HPE Sales Certified - Hybrid IT Solutions is supported by an HPE digital badge.

8. How do I share my digital badges?

Badges can be added in a number of places online like LinkedIn, your email signature, Twitter, Facebook, and more.

9. What are labor market insights¹ and how can I access them through Acclaim?

Labor market insights are pulled from live job requisitions. Based on your skills you can learn which employers are hiring, what job titles you might be qualified for, salary ranges, and more. Search active job listings and even apply for them with just a few clicks through Acclaim. Access the labor market insights from your badge details page by clicking on Related Jobs, or by clicking on the skill tags assigned to your badge.

10. What if I don't want my badge to be public?

You can easily configure your privacy settings in Acclaim. You're in complete control of the information about yourself that is made public.

11. Is there a fee to use Acclaim?

No. This is a service we provide to you at no cost.

¹ Labor market insights are available in the U.S., U.K., India, Canada, Brazil, and Australia.

For additional questions

Visit the [Contact our program](#) page or use the “Chat now” feature on the [HPE Partner Ready Certification and Learning website](#).

12. I mistakenly deleted the email, never received the email, or don't have access to the email from Acclaim alerting me of my digital badge. How do I claim my digital badge?

Badges are directly issued to and linked to an email address. As long as you have access to the email the badge was issued to (your email registered in HPE's MyLearning), you'll be able to access and accept your badge in Acclaim. If you haven't set up an Acclaim account, you will need to do so prior to accessing your HPE digital badge.

13. I have additional questions about my HPE digital badge, how to access my Acclaim account, and how to use my digital badge in social media. How do I get additional support?

Visit Acclaim's comprehensive support site, support.youracclaim.com, to find answers on how the system works, how to claim and use your badge, and details on other topics.
